The 10-10 Quarterly Bulletin is published four times each year by the International Ten-Ten Net, Inc. All currently paid up members receive a copy automatically.

Editorial office is at 445 Magnolia St., Denver, Colorado 80220. (303) 333-3547

Chapter activity reports (quarterly) should be sent to the 10-10 Net/Chapter Co-Ordinator: Richard Levy-WB2MAN, 30-A Arleigh Rd., Great Neck, N.Y. 11021

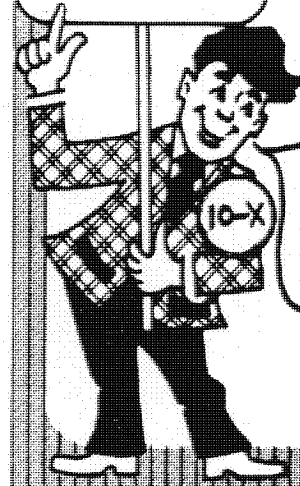

10-10 news items and photos should be sent to the Editor. Next Bulletin is the Spring Edition due out in April 1979 with a DEADLINE for all copy and photos of March 15th, 1979.

The 10-10 Quarterly Bulletin and Chapter News is an independent publication and is not affiliated with any other organization. Permission is automatically granted to reprint from this publication provided a credit line is used with the reprint.

Did You Know?

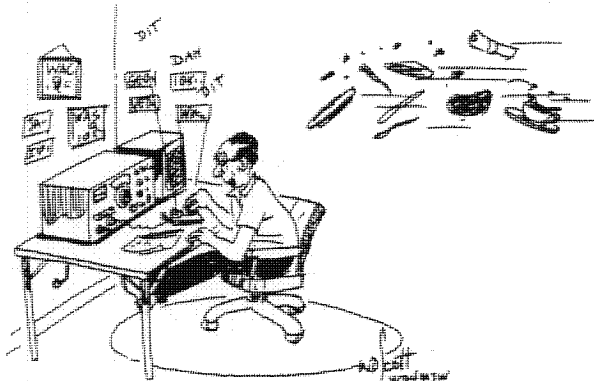

we had stamps?

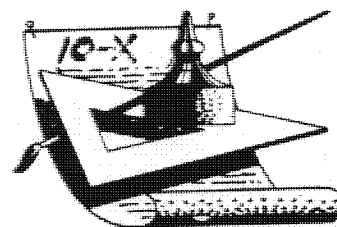

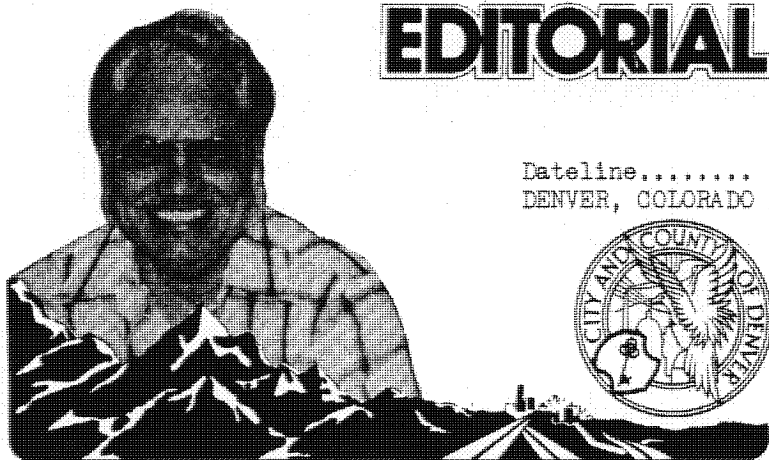

Help promote 10-X by using these stamps on all your radio amateur correspondence.

EDITOR'S APOLOGY.....

On page 6, 10-10 Fall Bulletin, we had featured an article, "The IOM KRACO" by Paul Rittenhouse * WA3TIU. Although we had obtained the Author's permission for reprint, I committed a journalistic sin. I failed to include a credit line to indicate the published source of this article. WA3TIU's article first appeared in the newsletter of the Reading Radio Club, Inc., Reading, Pa. I wish to apologize to that Club and to it's President: Thomas A. Youngberg - K3RZF for the omission.

"HERE'S YOUR DINNER!!"

Charles F. (Chuck) Albrecht Jr.
 WAØYNQ #8105 VP-230
 Editor, Ten-Ten International

Our cover person this quarter is CLAUDE MARTIN - W6LRY who, since 1962, has served the Ten-Ten International Net as General Manager. For sixteen years Claude has performed his many duties and responsibilities in an outstanding manner. Claude is recovering from a recent health setback and for that reason he has resigned as General Manager. Jim - K6PJO has now assumed the position. Thank you, Claude, for your dedicated service to the net.

Thanks, also, to George - W6ENC for your dedication during 1978 as our President. He now joins Morrie - W6EHM as a Net Director. As a result of the October 1978 Quarterly Meeting and election, we welcome our new Officers: President - Bob (W6WPY), VP/Mgr Dist-6 - Dick (W6ANK), VP/Mgr Dist-2 - Larry (WA2SUH), Rec/Sec - Jo (K6AYU) and Gen/Mgr - Jim (K6PJO). Thanks to outgoing officers: Fran (W6MXT) Rec/Sec and Marvin (KB2BC) VP/Mgr Dist-2 for a job well done. Finally we welcome Art (VK2NNY) and August (DK5UK) as VP/Mgr of their areas in DX-Land.

On page 2/ is a new feature addition to your 10-10 Quarterly Bulletins entitled, "International 500 Of The World". Membership requires the attainment of the 500 Bar (collect 500 10-10 numbers) for which you receive a "VP Number". The 500 Club has been managed since it's begining by Frank Orcutt (W4JO). Because of a health setback, Frank has resigned and duties have been assumed by Bill (WB6OMH). In the past a 500 Club Newsletter was published and mailed each month by Frank listing new "VP" members along with listings of those who had earned 10-10 Plaques (1,000, 2,500, etc), 10-10 W.A.S. etc. Starting with this edition the 500 Club Newsletter will become part of the 10-10 Quarterly Bulletin.

Those of you who have been working on your "10-10 Lucky 13" Award will be interested to know that Rich (WBØFQD) has assumed the duties of manager for this award.

I have mixed emotions concerning the new contest rules for future 10-10 QSO Parties (page 2/). Twice each year I have set aside one weekend to enjoy the event and during the Summer weekend I packup my equipment and camp out atop Squaw Mountain. A trip up and down the mountain is OK for one, but, not two weekends in a row. Being able to add my score to any 10-10 Chapter that I have a certificate for seems to me to take away from the intent to which chapters compete. A chapter's contest standing should be a reflection of it's "local" member participation and activity during the contest. I would think a chapter would value a win more if it were based solely on it's "local" membership.

As we welcome in the new year, lets reflect back on 1978. WOW!!! What another wonderful year for 10-10. Our membership continues to soar, and best of all, dues renewals have been on the increase. I will remember 1978 for my trip to the A.R.R.L. National Convention in San Diego and visits with 10-10 Chapters along the way. Last year there were 54 new 10-10 Chapters formed. 1979 promises to be an even bigger year with band conditions getting better and better.

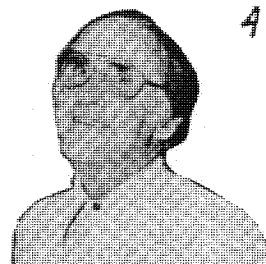

And thats the way it is this Winter of Seven-Nine on Ten-Ten. See you in the Spring Bulletin and on Ten Meters... 73, Chuck

Words from the President

As we enter a new year, I find excitement growing in anticipation of continued improvement in ten meter band conditions. This will surely bring with it an avalanche of activity unparalleled in the history of ten meter operation. This, of course, is what we have all been waiting for and, hopefully, will pay off for the patience we have endured during the 'quiet' period of band activity. This new found excitement, however, will present challenges to all of us in the 10-X organization. These challenges are not so much associated with the ability to make contacts as much as preventing chaos as is sometimes experienced on other bands. I believe we have a golden opportunity to help perpetuate the purpose of the organization during the next couple of favorable propagation years by providing concentrated energy to establish strong and united relationships with fellow amateur radio operators in all sectors of the world. From these contacts and relationships, I look forward to many new members and chapters being established throughout the world thus providing a medium of sustaining activities on the ten meter band in these areas even when the propagation cycle is less favorable.

Of course, we will be tested and challenged in regards to non Ten-Ten amateurs riding the crest of the exciting ten meter wave. After all, they may ask, why 10-X when the band is active anyway. We must remain courteous and retain the spirit of amateur radio fellowship which,

Bob Hartley
W6WPY-14949

after all, is why we find ten meters and the 10-X so satisfying. Don't hesitate, however, to expound the virtues of the 10-X.....23,000 members can't all be wrong.

I anticipate a continuing increase in the number of members and chapters in the year ahead. With this increase comes a need for a constant review of the management aspects of the organization and ways to streamline its operation. The past few years have found a need to computerize certain administrative functions such as membership listings, bulletin mailing labels, and rosters. Organizational changes have been made including the assignment of additional U.S. area and DX Certificate Managers to facilitate more expediate handling of membership requests. All of these changes have helped to keep pace with the increased demands of the membership consistent with maintenance of minimal membership costs. My committment to you is the continuance of this cost effective management approach for this coming year.

We all are, of course, saddened by the illness of Frank Orcutt, W4JO, whose dedication to the organization and personal committment to the awards program is well recognized. As previously reported, the awards activity has been reassigned to Bill Risher, WB6OMH, thus ensuring a continuation of this important aspect of 10-X contact recognition. I'm pleased to report that Bill has agreed to continue this assignment for this new year. Additional appointments made for 1979 include: Net Coordinator, Rich Levy (WB2MAN).....Records Manager, Lee Pasewalk(WB6MGM)Roster Manager, Howard Bowman(W6QIR).....Contest

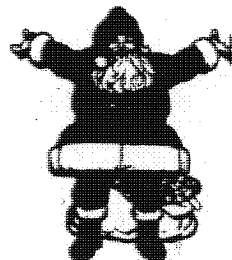

President's Message (con't)

Manager, Robert Mugherini (WALAKS).....Net Control Manager, Mary Grancell (WA6MOF). This latter appointment of a "Net Control Manager" is new and one which I believe important to ensure consistency in procedures and objectives as related to the official 10-X net which convenes each day at 10A.M.,P.S.T. (1800Z). Additionally, The NCM is the Net Control for the Thursday evening business net of the 10-X International.

I have further authorized the continuation of the special committee, under the chairmanship of W6QIR, to review and make recommendations in regards to changes as may be required to the 10-X by-laws. I want to thank these non-elected officers of the 10-X for their willingness to serve the organization during this new year. Also, my congratulations and thanks to the newly elected officers whose experience I will draw upon to ensure continued progress and growth of the organization. All-in-all, steady progress has been made under the strong and dynamic leadership of past administrations. With support from all of the membership, and the unselfish dedication of the 10-X officers, we will continue with this forward momentum.

To all of you and yours, a very happy and prosperous new year.....

I thank those of you who have been sending in regular monthly reports. Please keep them coming. We need all the reports we can get to supply data to the computer, otherwise without them we would not have a worthwhile project and the FCC might not approve the beacon beyond September 30th, 1979.

At least 50% of QSL's coming in have the wrong frequency listed. The beacon is on 28.888 mhz. As of November 1978 the beacon has received over 1,100 cards.

BEACON STATISTICS:

Location: North Hollywood, Ca.
Power Output: 7 watts
Carrier Frequency: 28.888 MHz.
Mode: A1 (cw)
ID: W6IRT
Message: Repeats every 100 sec. (12wpm)
Antenna: 1/4 wave ground plane with 3 drooping radials.
Radials 15 ft. off roof and about 30 ft. above ground.

Alan-WB3GPR & Norm-W6IRT

We need reception reports. Please monitor as often as possible. Log the RST (QSA) and mail monthly to W6IRT. California State University, Northridge is assisting in analyzing all reports, etc.

TEN-TEN ACTIVITIES
at the
A.R.R.L. National Convention
in

SAN DIEGO, CALIFORNIA
September 22-24, 1978

by: Chuck Albrecht
WAØYNQ 8105

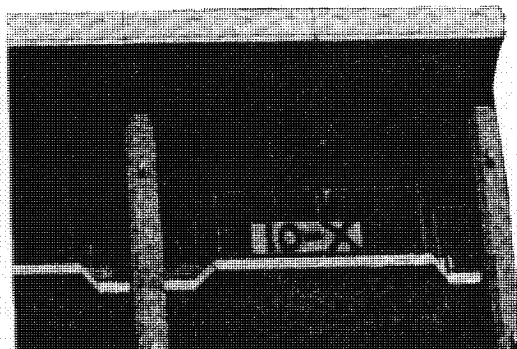

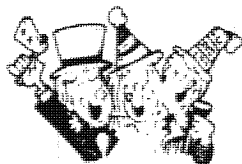

Plans for 10-10 activities at the A.R.R.L. National Convention were made as far back as December 1977 and after nine months of waiting I departed Denver, Colorado the morning of September 18th with Cedar City, Utah as my first night's destination. The next afternoon I arrived in Las Vegas with members of the Silver Dollar Chapter talking me in on 28.550mc. Thus started my many Chapter visits enroute to the convention. (a complete report of those chapter visits is contained in story on page 22.)

I stopped in Los Angeles to visit with President George (W6ENC) and XYL Mertice for last minute co-ordination on convention plans. George accompanied me on a short visit with Bert (W6CL) at his print shop to drop off the master copy of the Fall Bulletin. After hand shakes and farewells to George and Bert, I pointed car South and arrived in San Diego in the afternoon of September 21st. That evening I setup the TS 520 in my tenth floor room with a dipole strung out on the balcony railing. I tuned up and ID'ed...wow! I was answered immediately by a 2L who bent my "S" meter. This fabulous reception continued throughout the weekend. W6OI/6 had over 100 QSO's logged during the convention. Thanks go out to the many stations who were present each day to QSO with us, and especially to Bud-W4WHM (Nashville,Tenn) and Jerry-W9ZGP (Aurora, Ill) for their participation.

Sixty-nine 10-10'ers signed the guest book in the hospitality room. Our two hour 10-10 Forum drew a "Standing-Room-Only" audience with an overflow into the hallway. George Elliott -W6ENC (President) reviewed the history of the 10-10 Net. Bob Martley-W6WPFY (6-land VP) presented a series of slides giving the story of 10-10. Morrie Goldman (Net Dir) presented 10-10 Net plans for the upcoming WARC-79. Howard Bowman - W6QIR explained the workings of the 10-10 Membership Rosters. And last (but not least) Norm - W6IRT gave a report on his 10 Meter Beacon stressing the need for reception reports. Also introduced at the Forum were Mary - WA6MOF, Fran - W6MXT along with representatives from the following 10-10 Chapters:

MESSAGE FROM GEORGE

10-10 NET DIRECTOR
(Pres: 1978)

The year 1978 has come to an end and 1979 has started. The year has passed all too rapidly, Where the time went seems to be a mystery, the time passed very rapidly. The past year was enjoyable in some ways and trying in others. The Ten Ten Net has continued to increase in Membership. In most reports the renewals has equalled or exceeded the new Members. This is a most welcome sign. The Ten Ten Net needs new Members but also needs to retain the Members that joined the Net in days gone by. The Net needs all the Members both new and those that have belonged for some time. It must be realized that only 35 or 40 percent of the Members on the roll are active and pay dues. Oft times the question is asked, where does the money go from 22,000 Members? It must be realized that only 35% of that number, approximately 9000 pay dues. This presents a different picture as far as income is concerned. There is also the idea that the Ten Ten Net is not needed now that the ten meter band is on the upswing and the World can be worked with low power or QRP rigs. This, however is not the case. A great many of us can remember when ten meters was not the band to use and local contactswere all that ten had available. The same thing will happen again in a few years. None of us should forget that the WARC, Radio conference will be held in 1979 and the allocation of frequencies to the various services, including the Amateurs will take place. Hopefully the Amateurs will not lose to much. We hope that the ten meter band will remain the same as now. The Amateurs are not the only service that will be represented at the Conference. The commercial and industrial companies will be well represented. The Ten Ten Net and other Amateur organizations must work together, both locally and abroad.

One of the high lights of the year was the National Convention that was held in San Diego. The Ten Ten Forum was well attended and of interest to all who attended the meeting. The Speakers on the panel were well versed in their subjects and gave interesting and informative lectures. The, Editor, Chuck Albrecht WA0YNQ was the MC as well as one of the speakers. The Ten Ten Net Club Station W6OI/6 was on the air from Chuck's room on the 10th floor of the hotel. The Station a TS-520 and a dipole worked stations in the USA and some DX with good signal reports. There were Chapter Heads from several Chapters in attendance at the Forum and all were recognized by the MC. One member was from Mexico City and will start a Chapter in that area. He informed the group that ten meters was not used very much in Mexico and there are few Ten Ten Members but he will start a Chapter and get others to join. There will be more on the Convention by the Editor. Chuck WA0YNQ made the trip from Denver and we had the pleasure of having him stop in for breakfast on the way to San Diego.

I, as President, was fortunate in having a very loyal and helpful group of Officers during the year. Unfortunately two of the loyal Members, who have been active in the Net had to resign their posts due to illness. Claude Martin W6LRY who was one of the Charter Members, had a slight stroke and was forced to quit all activities. The job was taken over by James (Jim) Melrose K6PJO #9. Jim picked up the ball and kept the wheels turning and doing a fine job. Frank Orcutt, the Awards Manager was hospitalized and unable to continue the program. The Officers had the records sent to the West Coast and cleared the back log. I want to thank all those that helped mailing out the bars. Wm. (Bill) Risher WB6OMH has taken over and is doing an excellent job. Both of these replacements deserve our thanks.

It has been a pleasure to work with the Officers and Members during the past year. The Managers of the Districts, the local Officers and the appointive officers and committee Directors and members of the committees. I wish to thank the Chapter Heads and Members of the Chapters that sponsored the quarterly meetings held during the year. "30"

The above is a list of awards earned since the last 500 Club Newsletter was published by W4JO. This listing current as of the 1st of November 1978. Numbers coded by "?" indicate that no callsign can be found for that award number. Anyone with that award number please advise WB6OMH.

Amateurs with more than one callsign should indicate such when applying for awards. Also, don't forget to list your own 10-10 Number. Be sure also to list calls worked along with each 10-10 number to assist Bill-WB6OMH in his task.

It is said that history repeats itself and I certainly agree with that statement. It was a year ago that I traveled through Zero and Nine Land to visit with many of our 10-10 Chapter members. Last September I once again took to the road and visited with eight 10-10 Chapters on my way to and from the A.R.R.L. National Convention in San Diego, California. The eight chapters visited were: Joshua Tree, Silver Dollar, HOOT, Thunderbird, Grand Canyon State, Ten-Bar-X, Tamale and Cliff Dwellers. The stop in Phoenix included a meeting with Ron - WB7ADO (VP/Mgr 7-Land).

Sharing the fellowship with amateurs who have the same interest in Ten Meter activity, in addition to the wonderful hospitality shown me by these Ten-Ten Chapters, made my vacation a most enjoyable and memorable one. Once again my belt became tighter as I went from banquet to banquet, HI HI. I returned to Denver with honorary awards and a plaque (Joshua Tree) all of which I am very proud. I returned to Denver on September 28th after driving over 2,800 miles. My rig was a TS 520 with a base loaded whip.

Photos taken during the chapter visits are included in "TEN-X PIX" on pages 12 through 20.

STORY OF 1978 NATIONAL CONVENTION (con't)

Bert - W6CL gave a special introduction to Bill Adams (W6ANN) who was a featured station in the Spring Bulletin as one of the pioneers on ten meters back in 1928 after the band had been opened for amateur use.

Sharing honors for traveling a long distance to attend our forum were Luis - XE1LCH from Mexico City and Mike - VE7CMN from Canada. Mike, by the way, placed second in the Winter-78 QSO Party (see Summer Bulletin '78). Luis (XE1LCH 10-10# 18056) announced his intention to form a 10-10 Chapter in Mexico City with a net on 28.510mc Sat 1600Z.

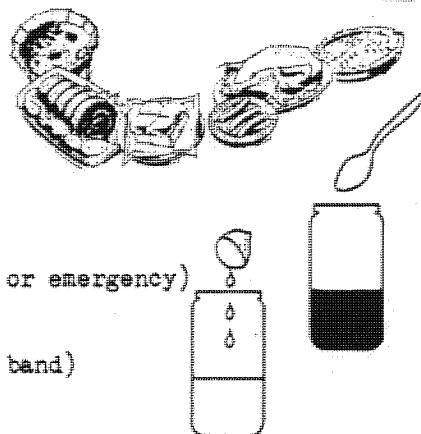

Next year the National Convention will be held in Baton Rouge, La., in July 1979. It is hoped that Gay - WB5SKQ along with the MardiGras Chapter can host 10-10 activities there.

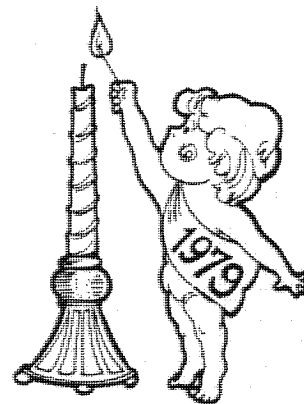

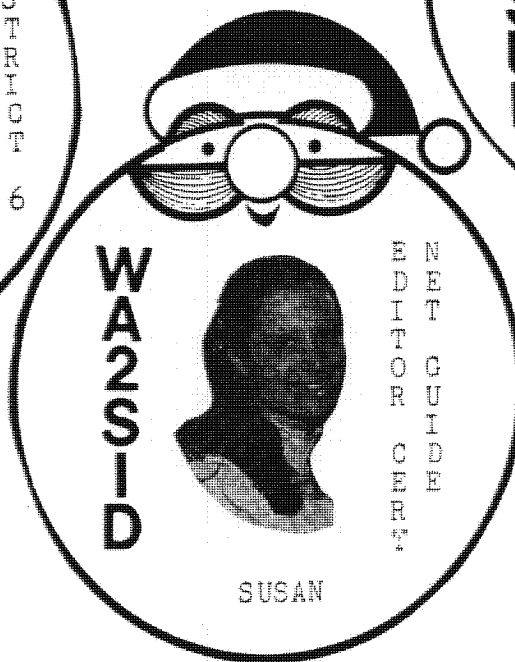

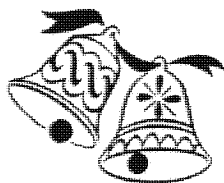

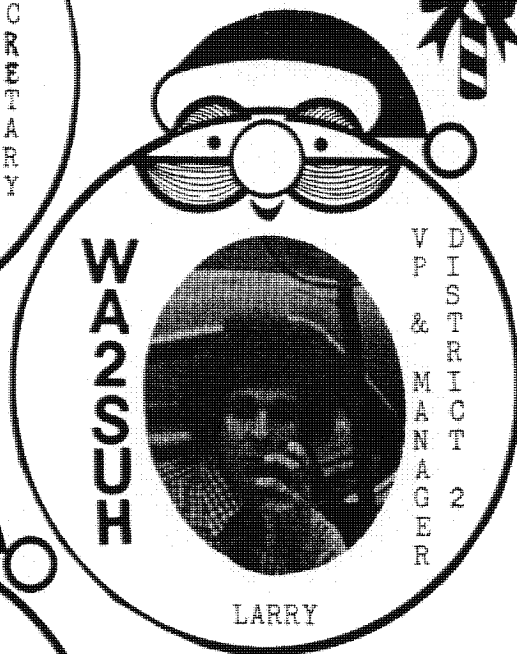

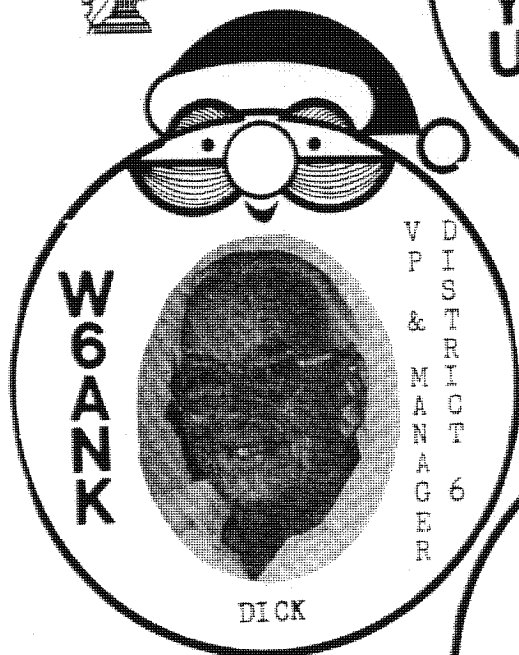

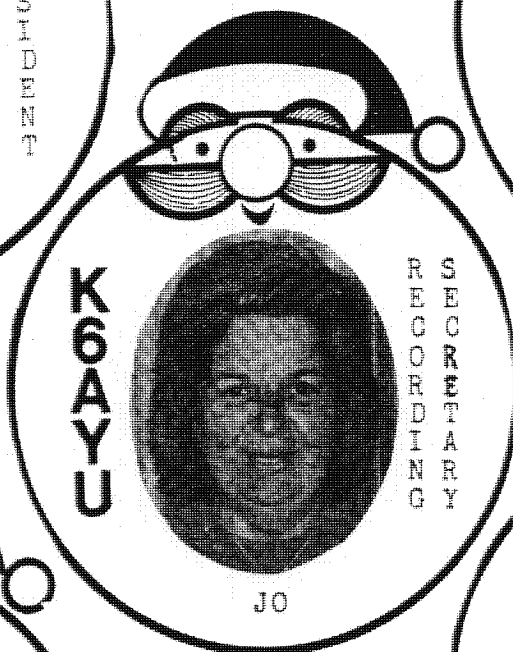

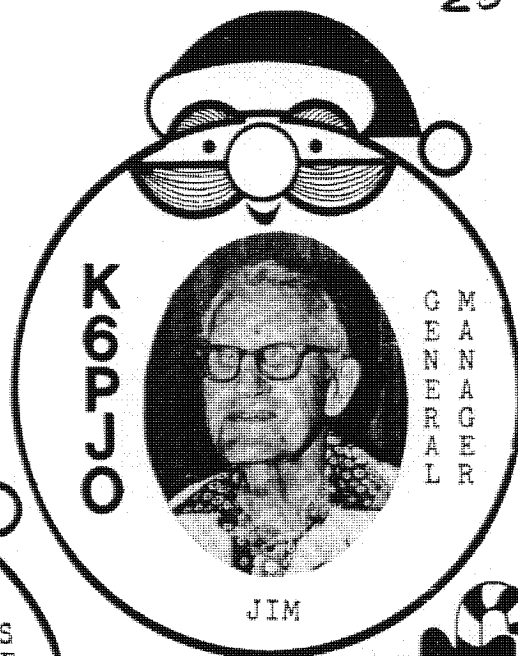

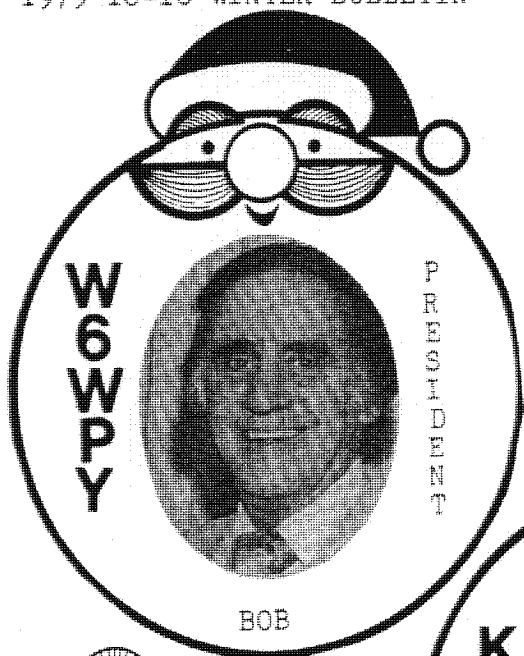

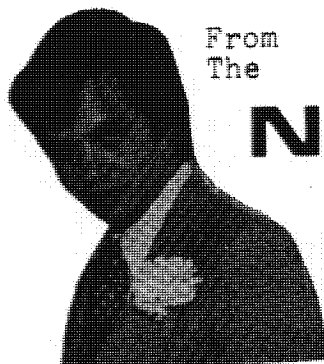

RECIPE FOR TEN METER ENJOYMENT.

- 1 Cup of COURTESY (To listen and ask before using a frequency)
- 1 Cup of RESPECT (For a QSO already in progress)
- 1 Cup of GOODWILL (Even if a station has no 10-10 number)
- 2 Cups of PATIENCE (To wait for a proper time to join a QSO)
- 1 Cup of COMMON SENSE (To ID when breaking into a QSO)
- 1 Cup of INTELLIGENCE (To use "Break" only in case of priority or emergency)
- 1 Cup of SUGAR (For QSO's with the opposite sex)
- 1 Cup of SPICE (For dull QSO's)
- 1 Bucket of SALT & PEPPER (For GB'ers trying to infiltrate our band)

Mix the above ingredients well and serve to everyone.

RICH LEVY - WB2MAN (10-X/ 4368)

Seasons greetings and a happy new year to all members and officers of the 10-X International Net! I'm happy to say that I will be serving as your Net Co-Ordinator for another year, and I hope that we will accomplish many of the things we set out to accomplish last year, as well as get some new things started this year.

Net Co-Ordinator's Net. One of the new things I'd like to get started early in the year is a net where we (Chapter Heads and officers) can get together on the air, and discuss some of the successes and failures of the Chapter operations, and help each other with our various problems. So, starting Sunday, January 7, 1979, and operating every Sunday from then on (if we get the activity) will be the Net Co-Ordinator's Net. The net will meet at 1800 Z., on a frequency of 28.895. I invite all 10-X Chapter Heads (or an appointed representative of the Chapter) to check-in and participate with this operation. I'm not exactly sure how the net will be organized at this point, but I'm sure we'll all get the feel of the operation once we get it rolling. I will need some alternate net control stations as well as relay stations for this operation, so any Chapter Head who is interested in one of these jobs, please make it known to me, either on one of the sessions of the net or by mail. I'll report on the success of the Net Co-Ordinator's Net in the Spring Bulletin.

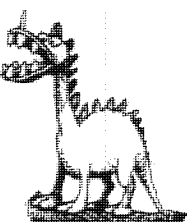

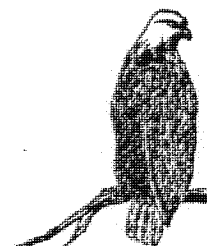

Endangered and Extinct. We started the Endangered Species and Extinct Chapter listings in the last edition of the Bulletin, and will continue it below. If your Chapter name appears on the Endangered list, it means that the Net Co-Ordinator has not received a report from your Chapter in over a year, and unless a report is received before the deadline for the next quarterly Bulletin, the Chapter will be placed on the Extinct Chapters list. Those Chapters placed on the Extinct list will be dropped from our records as being no longer a Chapter of the 10-X International Net, Inc. They will also be dropped from the Certificate and Net Guides, will be ineligible to participate as a Chapter in any 10-X function, and will have to re-apply for Chapter status as if they were a newly formed organization (which includes meeting the requirements for new Chapter formation) should they wish to be installed as a 10-X Chapter again. I've received many comments regarding the idea of these lists from the last edition of the Bulletin: some pro, some con. However, the best thing I can say in their favor is that about half of the Chapters listed on the Endangered Species list last time have reported in, and we again know how things stand with these Chapters. (All of them report a healthy operation incidentally.)

If you are a member of one of the Chapters listed on the Endangered Species list, and your Chapter is indeed still operating, please ask your Chapter Head to report to me at once, and to let me know how your Chapter Operation is progressing!

IMPORTANT ANNOUNCEMENT!! The CATT Chapter will be sponsoring a forum on April 28, 1979, at the Dayton Hamvention at which the goals of 10-X and 10-X operations will be discussed. All Chapters are urged to either send a representative to this forum, or send your comments in by mail.

Looking ahead, I feel very sure that the 10-X organization seems to be facing its toughest challenge in the next couple of years as 10 meter conditions continue to improve. Our long-time goal of promoting operation on ten meters does not mean much during periods of high sunspot activity. Surely an organization of over 20,000 members can do many worthwhile activities for the benefit of ten meters and amateur radio during periods of high activity on ten meters as well as the low points. What are the feelings of your Chapter? This is what we want to know at the Dayton forum. For complete information on exactly when and where this forum will take place, write to: Del Muckenfuhs/WB8EDG, 7160 Kyles Station Rd., Middletown, OH 45042. Del is the Chapter Head of the CATT Chapter.

Thanks. Thank you Walcome Stranger, Chief Anderson, Yukon Gold Panners and Truth or Consequences Chapters for your Honorary Chapter certificates. I am very pleased to accept them!

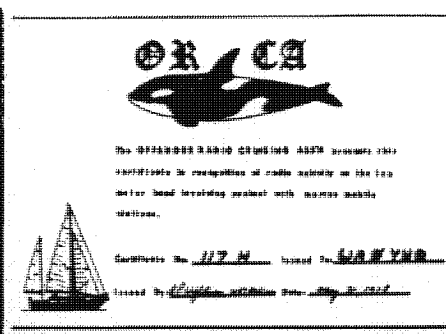

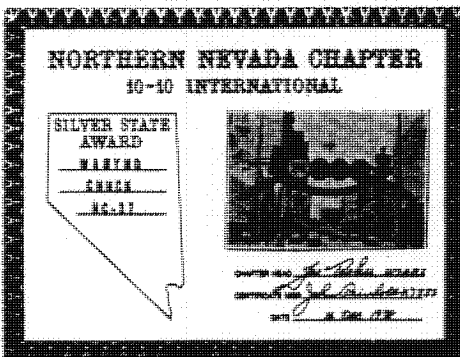

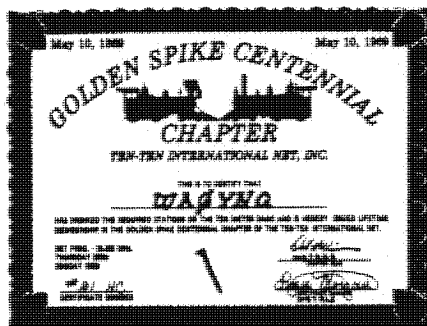

Doling out compliments. I wish to express my personal thanks to George/W6ENC for the fine job he has done as President of the 10-X International Net during 1978. I also wish to thank Fran Levy for all his work. Now, I would like to congratulate the new officers of our organization and wish them the best of luck in 1979. Good Luck Bob/W6WPY, our new President; Jo/K6AYU, our new Recording Secretary; Jim/K6PJ0, who will continue on as Corresponding Sec/General Manager; 2nd District VP Larry/WA2SUH; 6th area VP, Dick/W6ANK; and new VK VP, Art/VK2NNY.

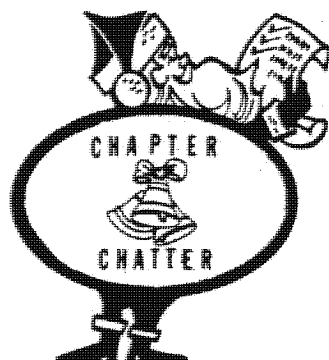

73 and the best in 1979,
Richard Levy/WB2MAN #4368 - Net Co-Ordinator

(EDITOR'S NOTE: The primary mission of the Ten-Ten International Net remains the same since it's beginning 17 years ago. Utilize 10 meters to it's utmost to prevent it's loss to the Amateur Service. Instead of searching for new missions, it would behoove us to strengthen the mission we have. After all, in a few short years the next "low" of the sunspot cycle will once again cause a lot of amateurs to migrate back to 20 meters. Then we will need the remaining 10-10'ers to maintain activity until cycle #22 comes along. Those of you who attend the 10-10 Forum at Dayton please consider my thoughts on this matter. WA6YNQ.)

CLIFF DWELLERS (K0WZX): C.H. Mark reports they are planning a surprise for non-local CD's who have had the fortitude to come to Pueblo, Colorado for a chapter visit. **COLORADO TEN-TEN (WB0FQD)**: C.H. Rich reports a fine turnout for their Christmas Party. Their basic awards have passed the 2,000 mark. (Ed's note: now that Yodar Kritch is no more, I think the Centennial Award is now the champ.) **HLAWATHA (WB0PTB)**: Their certificate fee is only .50¢. C.H. Brian says when you send \$1 it costs extra to refund the money. **SKY BLUE WATERS (W0REB)**: New C.H. Frank replaces WB0FKR. **WAR EAGLE (W0WFB)**: C.H. Art reports the "deadest" 10 meter band in 30 years for Iowa until DX came crashing through in October.

(more chapter chatter page 25)

DX [REDACTED] DX

BLUE MOUNTAIN LAGOON (VK2APD): C.H. Mac says that disappointment reigns supreme because the VK's wait so long to receive their Bulletins. (Ed's note: DX stations should add \$2.50 to their yearly dues for airmail return of the 10-10 Bulletins. After all, \$3 per year does not cover air mailing four Bulletins each year. It is interesting to note that Mac asks that applicants for their award add \$1 for air mail return.) **DOGWOOD (VE7CBM)**: New award, "Surrey Centennial" requires 5 contacts (1C) & \$1. Net freq changed to 28.675. **EDMONTON AREA (VE6ATT)**: Basic award now requires 5 contacts (1C or 2FS or 2L). **FLAGSTAFF (VK3NCF)**: New award, "Peacock" (NP) 15pts with 1C & \$2. **10M GRUPPE DL (DK5UG)**: C.H. August reports 10-10 EURONET on 28.777 Sun 1500Z & Sat 1000Z on 28.510. He says the continuing drop of the dollar has postponed the introducing of their award. **JOHNNY CANUCK (VE2BQN)**: Net changed to Sun 1000L (1500Z) 28.650. VIP award requires 76pts. **WELCOME STRANGER (VK3NIQ)**: Net changed to Sun 0000Z 28.530. C.H. Leo states that he is confused on the meaning of "local" members...well, Leo, with 180 10-10 chapters, each with different ideas, your best bet is direct correspondence with the Chapters in question...Ed. **WESSEX (G4BHE)**: Barry reports excellent conditions in England. Their "King Alfred" award requirements have changed to 20pts (2 C's). **WESTPAC (KG6JIP)**: Dave informs that Japan civilian stations cannot work KA's (& vice-versa) due to JA regulations. He also points out that their chapter has been having problems with lack of net discipline with European stations. **YUKON GOLD PANNERS (VY1AU)**: Vic-VY1AM is QSY'g to VE7-Land. C.H. Bill reports that the pretty voice being heard in VY-Land is Janet-VY1BP.

How to become a Ten-Ten Member

Work ten present members on 10 meters. Log each 10-10 number, call sign, date worked, operator's name, and location. Submit this list to your Call Area Vice-President, with \$1 Initiation Fee and \$3 for your first year's dues. Novices need not pay the Initiation Fee, and DX applicants need work but 5 present members. You will receive a Certificate and be assigned a permanent 10-10 Number. You must pay annual dues to remain in good standing, receive the Quarterly Bulletin, and participate in 10-10 activities.

How to earn Bars and Plaques

As a member, log the 10-10 numbers of stations you work on 10 meters. You may wish to mark your Roster to avoid duplicates, and to develop a filing system to record 10-10 contacts. All contacts must be bona-fide number exchanges on the air. When you have 100 contacts (including your first 10), list 100 only (never more, never less, and no duplicates) as follows:

1. Your list must be in serial order of 10-10 numbers.
2. You may submit only one list at a time.
3. You may not submit log books or copies of log book pages.
4. You must give your name, address, call sign, and 10-10 number and state which Bar you are requesting (i.e., 100 Bar, 200 Bar, etc.).
5. You must enclose an SASE (large size - about 4 1/4" x 9 3/8").
6. Mail your materials to: Wm. (Bill) Risher Jr. WB6OMH

Awards Manager
10542 Loch Avon Drive
Whittier, CA 90606

When you have attained your 500 Bar, you will be assigned an Honorary V. P. Number, and will be entitled to participate in additional activities. In addition, plaques are awarded for 1,000, 2,500, and 5,000 10-10 contacts.

How to earn WAS

When you have worked at least one 10-10 member in each of the fifty states, and have QSL card confirmation, mail your cards to WB6OMH (address above), and apply for the Ten-Ten WAS Certificate. Include sufficient postage to return your cards to you.

Chapter Activities

Many Ten-Ten Chapters issue Certificates which may be earned by following rules established by those Chapters. See your Guide to Chapter Certificates and Nets. Groups wishing to organize local Chapters should write to Net Coordinator RICH LEVY, WB2MAN, at 30A Arleigh Road, Great Neck, NY 11021.

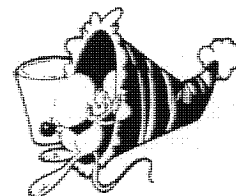

Is it That Time?

Look at the mailing label on this issue of your Quarterly Bulletin. In the center of the top line there is a four-digit number which tells you the expiration date of your Ten-Ten membership. The first two digits indicate the month, and the last two the year. If your membership has expired or is about to expire, RENEW NOW. Send your \$3.00 annual dues to your Call Area V. P. If you are more than three months in arrears, you must pay a \$1.00 Reinstatement Fee. RENEW NOW!

Happy New Year

New Rosters

Ten-Ten has grown too big for a single Roster to be practical. There will now be two publications, MEMBERSHIP ROSTER I, and MEMBERSHIP ROSTER II. Roster I will be 'solid' from 1 through 15000. The only future changes will be deletion of call signs of SK's and call sign changes.

Roster II will begin at 15001, and will include all numbers through 23,400, with call signs where such have been assigned. See the Order Form below.

Getting your Chapter listed. Norm/W6IRT, Chapter Head of the QRP chapter suggests that all 10-X Chapters submit a request for listing in the ARRL Net Directory. Certainly a good idea, so below is a reproduction of the ARRL Net Directory Registration form. Why not fill it in and mail it out.

OOPS, WE Goofed Dept.

OOPS #1 - The Cascade Chapter did NOT cancel their net as was reported in Fall Bulletin.

OOPS #2 - (from Grace-K5MRU) It has been brought to my attention that a member of the Nutmeg Chapter who sent his log for the 1978 Winter QSO Party without listing his chapter affiliation, later wrote about another matter and mentioned that he was a member. This, unfortunately, was overlooked, and credit was not given. His score, added to that listed in the Summer Bulletin, gives Nutmeg Chapter 11953/22282 and first place among the Chapters. My apology to all the members for this oversight. (Member was WA1SQB with score of 506/823)
